5 things that make us different

- LOVE** It's true and it is key. We love our clients. We love our work. Everything we do, begins and ends with love. And we should warn you right now, we're huggers.
- LISTEN** We are fanatical listeners. We seek first to understand, then to be understood. Great communication does not have to be a lost art.
- PRO** We're licensed. We're insured. We're professional. We own our music, LEGALLY. We bring \$50,000 worth of professional grade gear and music to every celebration. We have backups. And we have backups of our backups. We do what we say we're going to do. And we're active members of the community. In other words, we run the business like an actual business.
- PREP** Phone calls. Coffee. Text Messages. Coffee. Emails. Coffee. 1:1 planning meetings at the Coffee shop. Checklists. Agendas. Timelines. Music Edits. Voice Overs. There's no substitution for good prep work (and lots of caffeine)
- TRAIN** We attend three national educational conferences and workshops every year hosted by industry professionals. We have a profound training budget to ensure we are always at our best for our clients; always improving at our craft.
